

Hamlin Leads In Cotton Storage Facilities

Manager Roy H. McCurdy of the Hamlin Compress has under construction one of the largest cotton warehouses in Jones County, perhaps in all of West Texas.

When one views this huge structure he is inclined to think that the compress is providing a great hangar for airplanes. The new structure that is now all framed and ready for the iron covering, is 80 feet wide and 400 feet long, and the mean height is about 12 or 14 feet. This warehouse required four full car loads of special cut timbers, 2 x 6 stuff, and one full car of corrugated iron for the sides and top.

The compress warehouses make a magnificent show, five of them, all large and substantial. Perhaps there will be three the size of the newest one, and two smaller. This storage room is in addition to that of the covered wharfs about the compress.

Mrs. Tom Jones and her mother, Mrs. W. T. Green, returned Wednesday of last week from a month at Houston, Galveston, Bay City, El Campo and other places where they visited and had a good time. Mrs. Green has a son, S. F. Green, at Rosenberg and a daughter, Mrs. George Barnett, at Palacios. She says the list of places they were in would be too long to publish.

Mrs. W. C. Gorman is visiting at the bedside of her sister-in-law, Mrs. John T. Day who continues ill at her home on Central Avenue. In this connection it is well to say that Mrs. Day shows a wonderful spirit during her illness and it is the earnest hope of her friends that she may soon get well again.

Miss Gamela Hassen is spending this week in Stamford visiting D. Hassen and family.

When this cotton storage house has been completed it will make 15 in Hamlin, with one smaller additional one on the Day farm south of town. One thing certain, should all the cotton now stored in Hamlin ever be moved out and the warehousing room became vacant, Hamlin people could pull off a grand circus, picnic, rodeo, or most any kind of entertainment in the hottest day of any hot summer and give everybody a shady place to sit, stand, eat, run, or fight. Only reservations are that you can not pile up people like you can cotton. The changing of economic conditions brings about strange requirements. Storage places have long been needed in all this land and it looks now like Hamlin is getting plenty of storage, and still we may expect more warehousing room here this fall.

Mrs. Clyde Wilson and Mrs. O. K. Wilson left Thursday for Denton, where Miss Clydene Wilson joined them for a visit with the Mrs. Wilson's three sisters in Fort Worth for a reunion. It had been about ten years since they all had been together. They will return Monday. Miss Clydene Wilson has completed her summer work in North Texas State Teachers College.

Mr. and Mrs. M. T. York and son, Marvin, and daughter, Betty, and Mr. and Mrs. Gordon Bennett and daughter, Patricia Lee, are spending this week in Ruidoso, New Mexico.

Mrs. A. Holmberg, of Dumont, Texas, has been visiting Mr. and Mrs. J. W. Fomby and other relatives.

FOUR BALES COTTON BOOMS GINNING

The Herald announced last week that a bale of cotton had been received.

Before all the papers were in the office, three more bales came in and thus our 1938 crop started off with a boom.

Of late years several farmers have demonstrated that if possible to have cotton seed in the ground just as the last freeze comes, they have many chances to make a good crop ahead of the later cotton.

The early planting is especially noted north of town on the Judge Bryans farms. Mr. Hilterbrand is noted for his early cotton, but this year he got a little too early and that late freeze got his first planting, but over not far away, a Mexican by the name of Pete Nunez finished planting just as the freeze started, and therefore, he has already brought three bales to Hamlin, and they are now stacked up bright and new at the Fed H. Britton Gin. But Nunez was headed off by another Mexican by the name of Thomas P. Lopez, who won the first prize, and Nunez the second.

Judge Bryans lives in Abilene, and he was over last Friday and he had a grin of satisfaction. He said his men could have had two or three bales at the gin first if he had not stopped them and went to gathering some feed stuff. He thinks it quite funny that a cattle man should be in on the cotton farmer and gets an early prize.

Lets hear from the Chamber of Commerce.

FIRST BALES OF COTTON, PREMIUMS

Hamlin received its first bale of cotton Aug. 17, whereas the first bale of cotton was received for 1937 Aug. 4. The following firms and individuals contributed to a premium which the Chamber of Commerce divided 65 per cent to the one bringing first bale and 35 per cent to the one that brought the second bale. Thomas P. Lopez won first prize and Pete Nunez won second prize.

"Grandpa" P. E. Smith was on the streets Saturday slightly under the "weather" while Mrs. Smith and son, Ira Smith and wife and baby, were on a trip to Logansport, La. to visit Mr. and Mrs. Robert A. Wells. Elva Smith and wife came back with them for a visit. P. E. Smith is one of the older citizens of eastern Fisher County, and he says he can't cook like he did in the days of camping out.

Miss Mignon Waggoner returned this week from Abilene where she has been visiting friends. She was accompanied home by Miss Evelyn Sanford who will be her guest for a few days.

THREE COACHES TAKE PLACE OF ONE, RESIGNED

It is a puzzle as to whether the Herald should say that the Hamlin school board can't find and keep a coach, or to say that they have found the services of three. Three big fellows are now on hand and are training the boys for the battles that are ahead.

The Herald announced sometime ago that Jimmy Marshall was on the field for the coaching job, but no sooner than Jimmy got settled his former place as assistant coach at Stephenville became vacant and before anybody knew what Jimmy was doing, he had packed up and hiked back to his old grounds.

It looks now like the school board has framed up an aggregation to do some winning. We fancy they have been asking a lot of questions: "What can you teach, and can you coach" and the fellow who could not coach did not get a job. So as it is Hamlin Hi has three whopping fellows on the job coaching our Pipers how to push and pull. They are:

Marcus Smith, head coach, is a Daniel Baker product.

Melvin Gregg, an assistant, is a Texas Tech man.

Louie Cure, another assistant coach, is an A. C. C. man.

R. M. NEWSOM DIED

LATE WEDNESDAY

Funeral services were held Thursday afternoon, at the McCaulley Cemetery for R. M. Newsom, a well known man of Hamlin who died at the Baylor hospital in Dallas, late Wednesday afternoon, Aug. 24, age 78 years, 9 months and 14 days.

A full sketch of Mr. Newsom's life will be published in the Herald next week.

West Texas Boys Make Good Soldiers

SGTS. HUGHES AND McWRIGHT

In the above picture the big fellow on the right is Sergeant E. C. McWright, a product of Stonewall County whose father H. A. McWright, lives near Hamlin.

The Sergeant on the left is E. P. Hughes, another Texas fellow, who grew up in Central Texas, and therefore is not so tall, or something.

Anyway these two big fellows are doing a good job in the U. S. Marines, stationed at San Diego, Calif.

Mr. McWright spent four weeks out there this summer and brought back a lot of pictures of his son and his wife, and others.

The picture above is typical of two "Buddies" indeed. Sgt. McWright enlisted in 1923 and Hughes in 1922. Since 1924 they have been together in many places of the world. . . Guam, Philippines and Shanghai, and pals all the time. It is home guard work now for them till something pops in some nook where the flag floats . . . and the boys will be off again.

McWright weighs 223 pounds and if he could pick up one more pound he would be as large as his dad. One thing certain if all the Marines are that large, no surprise that they take anything they go after. Bet that old Sergeant from Stonewall County still has grit in his "gizzard."

The Herald is glad to get the low down on those fellows and now if E. C. will drop us a "confidential" line, maybe we Hamlin folks could find out what H. A. did in Tiajuana, Old Mexico.

Definite Plans Made For School Opening Sept. 5

MONDAY'S ENROLLMENT,

SEPTEMBER 5th

9:00 A. M.—All High School Seniors, and all pupils below the High School department, who were not enrolled in the Hamlin schools last session. A pupil will not be classified as a senior if he has less than eleven high school units.

1:30 P. M.—All High School Juniors. A pupil to be a junior must have at least eight high school units. Also at this time will be enrolled all pupils below the high school department who attended the Hamlin schools last year.

TUESDAY'S ENROLLMENT,

SEPTEMBER 6th

9:00 A. M.—Sophomore enrollment. A pupil to be a sophomore must have at least four high school credits.

1:30 P. M.—Freshman enrollment.

Enrollment at the proper time at the beginning of the session is absolutely necessary and we urge everyone to be enrolled even if he is not counting on being in school for the first part of the session. This is necessary in order that we may know how to classify each pupil in the various departments and to know whether or not we have to order more books than we have in our libraries. On account of the large enrollment we are expecting this coming session, it is very doubtful if the pupils who enroll late can secure books on time and be properly classified.

A few special fees have to be required in some departments. There is no other way of financing these special departments. The fees due by a pupil must be paid before he receives his books. The following fees are charged: \$1.00 High School Library fee for the session is required of everyone taking English, \$1.00 High School Science fee for the session is required of everyone taking a High School Science course, \$4.50 Typing fee for the first semester is required of those taking typing. Only seniors will be privileged to take typing.

Signed: C. G. GREEN,
Superintendent.

THE RUN-OFF IS HERE:

Pity the poor candidate, who for more than six months has been telling the voters how well he is equipped to hold such and such an office. He has told and told his story till now he is dragging his feet in sheer exhaustion. His tongue is out from racing, his vocabulary is blunted for more words. Most of these run-off candidates are weary, weary, and we know what we are talking about.

What the run-off candidate now needs is sympathy from his fellow man. He asked for an office somebody must fill. Others ask for the same and after the votes were all scattered around nobody had a majority, and its run, run, again. Is it worth it? Yes if you get there, and NO if you fail. What we need is more sympathy for the office holders who have actually done their best to comply with the law in their capacity. Some may have held the office long enough, but don't blame them. They should be all the better for such service. Let us pity the poor run-off candidate, for his run has been hot, anxious and long since July 23.

EVERYTHING IS NOT FAIR

We have heard it said all our lives that "everything is fair in Love and War," and it seems that some people will add "politics." No more misleading statement ever gained a quotation than those words. Nothing is "fair" that is NOT fair.

Most thinking people this year have heard one certain expression in the political war that is sickening. "Gang or professional politicians" and "they are ganging up on me" and another "machine politics." One who is already suspecting the worse is likely to get overbalanced and think that everything is wrong, everything is a "gang," everything is

against everybody else, and on and on.

If it is fair to elect a man and put him in office and if he serves to the best of his ability, and once more asks for that office or some other one, why blacken his character by unwholesome epithets, so common this year in the political battle?

DOMESTIC COTTON

ALLOTMENT PLAN

The Herald is glad to note that the West Texas Chamber of Commerce is backing the Domestic Cotton Allotment Plan. It is about time "talking" was stopped and lets have action. Do the masses of cotton farmers really understand what that plan is, or what plan they do want? It is about time to start in the right direction.

Most farmers, and would-be farmers are displeased with the present farm program, but they do not seem able to get their minds fixed on what they want or can do.

If a stabilized, bounty supported price for cotton is ever established, it is going to work a hardship on somebody but it will help the great mass of people. The main thing now holding back the Domestic Allotment Plan is, for example, if cotton should be stabilized at \$100 per bale, many think it would cause the great land owners to get too much of the cotton pie. The only safe and reasonable basis to work out the plan on is to have it on the "Family" unit. No plan will help cotton producers down on the small farm or the renter, unless it starts with the family unit. If the allotment for a certain farm could be 500 bales each year, it would not be best for this nation to permit that much cotton to go at \$100.00 per bale, or

any higher price, and let thousands of families drift into poverty on the road side, without an acre or a chance to produce a bale. The only safe plan is to provide for the people who can use some of the stuff that is raised on the lands.

Right now this country has thousands of acres of cane feed ready for harvest and not a single child in this country can eat it and live. Too much cane feed and not any way to consume it. Let the little hungry fellows have a reasonable chance at the great cotton crops at a good price and watch 'em dress and eat, and go.

Whatever plan this country changes to for the cotton farmer, the only thing that will do much good is whatever will tend to cause the owners of land to ask for families to come back and live, work, produce and share in what is made. The idea of WPA and such can not be stopped until we figure things from the human angle and not from the dollar side. Dollars are good but you can't eat 'em.

If a premium is offered because a family is given a few acres to rent, the result will be land owners hunting for renters. All this summer men are looking for a place to move and nowhere to go. Let them fail to get a place and in a year or so they will be seeking WPA work. Better pay a land owner a "bonus" to get a family on his land than pay him to let the land go idle or produce something he can not sell or eat.

There is room for thought here, boys, and you had better get to thinking.

W. A. Albritton and Joe Simpson spent two days of this week in Fort Worth attending the convention of Retail Merchants of Texas. O yes, they also took in Casa Manana. A report should be given of this trip.

For Your Family's Sake...

KEEP MILK SAFE! ...IT IS THE FIRST RULE

OF ALL-WEATHER FOOD-KEEPING

● Keep milk fresh and pure, if your family is to have one of Nature's most wholesome foods. To be sure milk is as fresh as the minute it's delivered to you, the U. S. Government recommends that you store it in a refrigerator, where

the temperature is 50 degrees or less. Above 50 degrees, milk spoils rapidly, curdles, gets sour. Other food, not so easily detected as milk, spoils too in higher temperatures. Below 50 degrees, milk and other food is safe. Check your refrigeration now!

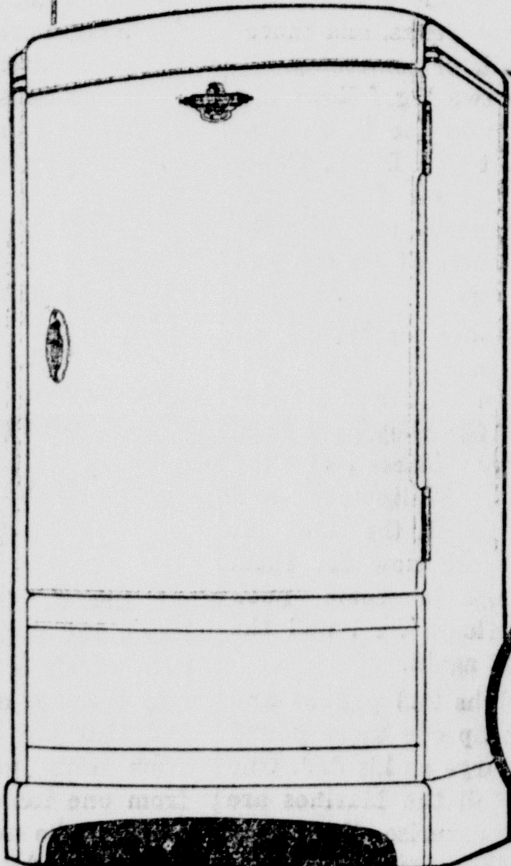

An Electric Refrigerator

PROTECTS ALL FOOD...AT LOWER COST!
KEEPS MILK SAFE...KEEPS MEAT FRESH...KEEPS VEGETABLES CRISP
...AND MAKES ICE CHEAPER THAN YOU CAN BUY IT!

● Don't waste money or endanger health with spoiled food! Keep foods safe in a modern electric refrigerator. And save money at the same time!

An Electric Refrigerator keeps foods safe, sweet, fresh, and saves you money every way there is to save. Saves on Current...on Food...on Ice...on Upkeep. You must save All Four Ways—or you may not save at all! And in addition, a Frigidaire provides a remarkable ice service for all-year needs—freezing tremendous quantities of ice cheaper than you can buy it!

Visit your electric refrigeration dealer. Ask for proof that shows you food is safe...even in the hottest weather. You'll be amazed to learn how much money you can actually save, too.

MISS GILBERT TALKED TO ROTARY WED.

Hamlin Rotary Club was entertained Wednesday by Miss Edwina Gilbert who recently made an extensive trip through the north central states, into Canada and a six weeks stay in Chautauqua, New York.

Miss Gilbert said they left Texas through Mt. Pleasant while W. Lee O'Daniel was presenting his Hill Billy music (Miss Gilbert is a music teacher) and low and who would have thought it, when she and her friends got back to Texas—the Music Maker was Texas' choice for governor.

Miss Gilbert impressed the club with her remarks about every town or city having a "personality." This was what they saw or felt on entering, passing through the many cities from Texas and back. She said Kansas City had the most inviting city "personality."

But there is always the same ending of a travel narrative . . . big Texas and little Hamlin are the best places in all the nation . . . reason . . . because this is home.

All members of the club and the several visitors heard something of our country, never thought of before.

Miss Lennie Greenway is back again at her place in the F. & M. Bank following her vacation. Mrs. Ike Goedeke of Clovis, a sister of Miss Greenway, came back with her and will make her home in Hamlin. She and Miss Lennie will have apartments in the Phenix home.

Mrs. W. J. Carter is one of the good farm women of the Hamlin community, who remembers how in the olden days a little treat of fruits or something from the farm would cheer up the country editor. So not to let good deeds pass away she and her husband presented the Herald man with a nice watermelon Saturday afternoon. Thank you, neighbors, we enjoyed the melon very much.

Health-Wrecking Functional

PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

PRACTICAL POINTS

(By Reporter of Kings Daughters)

Selfish people have small patience with love's generosity.

Read the roster of the world's great names. Are they not those of persons who have served others?

You can't hoard your religion and have it too.

Are we too much given to making holiday or holy day?

Joy like gold needs to be kept in circulation.

Do you want to be counted among the dependables?

Why not make our friendships more unselfish and more adventurous?

We must have information as well as inspiration, and what better way than the study of these great lessons from Sunday to Sunday?

Help us to get a clearer vision of the beauty of Christian character and the joy of Christian service.

Meet with the Kings Daughters Sunday morning. Time 9:45 o'clock.

Cherry Queen Picks Cherries for College Education

Miss Josephine LaFrancia, 18, this year's Queen at the Cherry Festival in Traverse City, center of the great Michigan cherry growing region, had a special interest in this year's picking. Her father, owner of one of the largest orchards in the region, gave her the deed to this season's crop to defray her college expenses. After reigning over her "court" at the Festival in queenly style, she donned overalls, drove her new Chevrolet back through the thousands of cherry trees and started to help harvest many tons of cherries.

Back to School on a Bus

Throughout America this week youngsters will retrace their steps to the school room to begin another year's study. Some walk, others ride, but none of the riders have a more unique system than the students of North Carolina where a state-operated bus system is handled largely by the students themselves. About 50 per cent of the bus drivers are of school age, and woe to the motorist who considers them lightly. Drivers appoint monitors, fellow bus riders who stop traffic while youngsters cross the street. Upper picture shows a North Carolina monitor, while below are some of the busses ready to take students home after a day in school. Each afternoon shortly after 3 o'clock hundreds of these conveyances carry the children to the waiting parents.

"Dad," said his extravagant son, "do you think they will ever find a substitute for gasoline?"

"They have one now, son, and I wish you'd give it a trial."

"Oh!" queried the son incredulously. "I've never heard of it. What is it, anyway?"

"Shoe leather."

Clothes End the Controversy

DENTON—It takes longer to make a dress of stone than of cloth, but the statue to Pioneer Women to be erected at Texas State College for Women is now modestly clothed. Artist Leo Friedlander, who started a furor with his original model of four nude figures depicting a pioneer family, won the approval of the Board of Control with the model pictured above, which is now under construction. Critics of the original claimed that the figures "looked like apes," and that a nude statue was not "appropriate to a woman's college campus."

MRS. J. V. GAMBLE, FORMERLY MISS ANNIE LOUISE RUSH, DIED IN CALIFORNIA, AUG. 11.

The loved ones of Mrs. J. V. Gamble, formerly Miss Louise Rush, of Hamlin, a daughter of Mr. and Mrs. O. W. Rush of this community, are grieved by her death in Chico, California, on Sunday, Aug. 11. Her home was at Orland, but she had been taken to a hospital at Chico.

The following sketch of Mrs. Gamble's life has been submitted: Annie Louise Rush, a daughter of Mr. and Mrs. O. W. Rush of Hamlin, graduated from the Hamlin high school in the class of 1936. She was married to J. V. Gamble of Plainview June 14, 1936 and made their home in that city till they moved to Orland, California, in 1937. She became ill and was taken to a hospital in Chico, Cal. on Aug. 11, and passed away the same day, at 8:15 P. M. She is survived by her husband and one son, age 5 months, her parents, two brothers, W. E. and V. F. Rush of Wink, Texas and four sisters, Mrs. Irene Bibby of Hobbs, Mrs. Margie Blagg, Waco and Obara and Wynona Rush of Hamlin.

She was a devoted young companion and mother, ever ready to help others, faithful to her church and her many beautiful traits of character will live to bear testimony of her christian life. Certainly all the bereaved relatives have the deepest sympathy of their many friends in Hamlin.

Those going from Texas to California for the funeral, were: Mr. Gamble's mother and her daughter and son-in-law from Plainview, Mrs. O. W. Rush and daughters, Misses Obara and Wynona of Hamlin and her two brothers, Edwin and Virgil Rush of Wink, Texas.

IN MEMORY OF ANNIE (RUSH) GAMBLE

(By Her Aunt, Mrs. H. M. Phillips)

A precious one from us has gone, Annie's voice so sweet is stilled. A spot is vacant in our heart, That never can be filled.

Our days were bright and cheery, But without Annie they are dark and dreary.

We loved her much more than she will ever know, But Jesus called and she had to go.

I am sure she is much happier in Heaven fair, Free from pain, sorrow and care. We will remember her from days of yore

And prepare to meet her on the Golden Shore.

Points and Personalities

by doris pope

With this issue of Points and Personalities, this column celebrates its first anniversary. Just one year ago, we started this column as an experiment, collecting news and relaying it on to you, hoping you would like the idea.

Writing a column isn't exactly a whiz, but it is lots of fun. We get a kick out of mixing and gabbing, because it gives us an opportunity to become acquainted and to get to know you better. Of course we've missed some weeks and we've had no news so far, and we've had 52 weeks we've been writing, we have mentioned 237 different persons, 28 different business firms, 17 different civic and school organizations, and 10 different towns in our column.

If you've enjoyed these weekly blabs, we're glad, and we hope that we will continue pleasing you. If you differ with us, we're still glad, because that means you have been reading what we have been writing.

Hooray and plenty of it! Can you imagine anything nicer than going to the Post Office on a cold, rainy day without having to wade ice and water ankle-deep? Well, it is going to be that nice this winter 'cause a block of brick paving is now being constructed right down in front of the P. O.

And while we're talking about streets, why doesn't someone suggest to the city council that they have the parking space marked off in lanes with white paint or something and make Hamlin motorists park in "them lanes." At least it would keep one fellow from taking up the space of TWO and the city might be able to pick up a few extra dollars from the "stubborn" ones.

We heard: That wedding bells almost rang for a certain Conoco employee... Jimmy Simmons has been spending a great deal of time in the West... and it isn't for his health, either... Howard Nall doesn't think it's such a bad idea to get fired, 'cause he's tired... he didn't expect the boss to hear this... That Jim Moody's sunny smile has been missing because he lost a front tooth on his vacation... maybe the Ozarks didn't agree with Jim... A local football fan say that if the size of coaches has anything to do with winning, the Hamlin Pipers won't have any trouble... That a groceryman's life is the hardest in the world... A widow and a widower are planning...

Here and there: Mr. and Mrs. J. W. Ezell and Mr. and Mrs. M. P. May have been kidded this week about their trip to Alabama... it seems that Parker met a gal he used to "cou't" who is now a widow... Chunk McCurdy brought proof back with his fish story... maybe he profited from past experience... Little Patsy Bledsoe, of Oklahoma, explained to us that her black and white pup's name is Lee-O... reckon where she got that name... We're all wondering if the voting Saturday will follow the straw votes this time.

Hamlin's not the only place that pulls some pretty rare stunts we discovered last week in Amarillo. In celebrating the formal opening of the Will Rogers Highway, Amarilions tried to make everything and everybody go "cowboy" in honor of the famous cowboy philosopher, and if a body failed to comply, then a body was promptly dunked in the "Amarillo dunking tank" that was conveniently placed in the center of the busiest street. Native, visitor or stranger... all were dunked.

Kurt Schoemann returned Saturday from New York and St. Louis where he visited the markets and purchased new merchandise for the Strauss Dry Goods Co.

A. R. Edwards and family, of Dallas, were guests in the home of Dr. and Mrs. J. T. Bynum Sunday. Miss Anna Beth Edwards remained for an extended visit.

NOTICE TO THE VOTERS

Of Jones and Shackelford Counties.

I wish to thank all who voted for me in the July Primary. It was my aim to see as many as possible of those who supported me and those who did not support me in the first primary, but to my disappointment I became violently ill Aug. 15th with acute appendicitis and was brought to the Stamford Sanitarium and was rushed to the operating room and was operated on. I am very sorry that I have not been able to be out among you to solicit your vote—so I take this method to appeal to you (The Voters) of Jones and Shackelford Counties that if you see fit to vote and elect me on August 27, I assure you that my work and conduct, while I am in office as your Representative, will be such that you will always be proud that you had a part in electing me.

Will say that my operation has been a success. The Doctors say I will be out in a few days. I am feeling fine and trust that I may have the pleasure of being your next Representative.

THANK YOU

VOTE FOR

B. T. BEAVER

FOR

COUNTY SCHOOL SUPERINTENDENT

As friends of B. T. Beaver, we unhesitatingly and wholeheartedly endorse his candidacy for the office of County School Superintendent.

Mr. Beaver has proven his ability as a school man, not only by eighteen consecutive years of successful teaching, but also by serving efficiently as County Superintendent of Jones County during the depression. He believes that the schools should be maintained primarily for the children. If elected, he will devote his best efforts to promote a well balanced program of education for all the schools of the county.

B. T. Beaver led the ticket by more than three hundred votes in the first primary. This is a strong indication that the people of Jones County appreciate his service as a former County Superintendent, and we wish to join his many friends in soliciting your vote.

Miss Ora Stephenson, daughter of Mrs. W. H. Stephenson, became the bride of S. G. Carruth, of Austin, Sunday afternoon at 6 o'clock, Aug. 21, in the First Baptist church, McCauley.

"Sure we do...and it's better business, too"

When you drink Beer in a tavern...choose your tavern

WHEN YOU restrict your patronage to legal, respectable retail outlets, you not only encourage those better outlets but you've made a start toward driving out the bad spots in your community.

And that is exactly the aim of the great body of honest retailers of beer who, along with the brewers, recognize that Beer's only problem is to remove the anti-social

conditions that sometimes surround its sale.

Existing laws can curb these evils. Help us by demanding their strict enforcement! Sales to minors, or after legal hours...or use of a beer license as a screen, for selling illicit liquor or for operating an illicit resort...all these are violations of the law and should be stopped. Public opinion, once aroused, can see that such practices are stopped!

Mr. Kurt Schoemann, manager and buyer of Strauss Dry Goods Co. reports business good in New York and St. Louis, where he spent two weeks buying merchandise. He states reason for good business there, they are bidding for business by giving quality merchandise at low prices. Everywhere there are values, and Kurt bought plenty of these values. Every day brings big shipments of ladies ready to wear. The newest in coats, dresses, hats, shoes, and they continue to arrive. So Kurt says Strauss', Hamlin, this fall, will give the same values as you would find in St. Louis, Chicago or New York. Why go elsewhere—buy at home.
